CANADIAN PLUCK.

AN INVASION PLANNED IN RESPONSE TO THE RASH INVITATION OF THE THIRTEENTH REGI-MENT -HALF A BEIGADE TO CROSS THE LINE. THY TELEGRAPH TO THE HERALD. 1

MONTKEAL, Oct. 25, 1879. The military authorities here have had for some time under their consideration the invitation of the Thirteenth regiment, of Brooklyn, and no ques. tion has had so much effect on the esprit du corps of Montreal troops since the events of 1866 and 1870, which called the different regiments into ser vice on the frontier. Colonel Austin's invitation was a general one. He said:-"We can provide comfortably for any of your regiments, but they will

So popular has been the "On to Brooklyn" cry that there semed for a time some danger of every regiment in the Montreal brigade going over the border. The men have been drilling quietly, the Sixth Fusileers, which visited St. Albans last year, being in the van. This regiment was the first to an

being in the van. This regiment was the first to announce their intention of going to Brooklyn, and the Fifth Fusileers, mostly Scottish and clad in the tartan plaid and trews, followed suit. The Montreal Garrison Artillery next announced their intention of participating in the exodus to Brooklyn, and then the Frince of Wales' Own followed suit.

AN IMPORTANT COUNCIL.

Matters assumed a more business-like aspect yesterday afternoon, when a meeting of the commanding officers of all the regiments was held in the Brigade Major's office and the invitation considered officially. Colonel Crawford of the Fifth Fusileers, was in favor of accepting the invitation for one or two regiments, but of making application at once for leave to cross the border carrying arms, so that ne disappointment might result if an application made later were refused. He believed nothing should stand in the way of the friendly visit of the Thirteenth being returned on Decoration Day. This seemed to be the opinion that carried the day, and it was understood that Colonel Fletcher, A.D.A.G.C.G., should during a visit endeavor to learn the feeling of the militia authorities on the matter.

learn the feeling of the militia authorities on the matter.

THE COMING GUESTS.

The question then discussed was, "Which of the regiments shall go?" After some discussion it was resolved that the Sixth Fusiliers, Colonel Martin commanding, should represent the light infantry (a red coated battalion), and the Prince of Wales' Own Rifles, Colonel Frank Bond commanding, should represent the riflemen, a body of the service contemporary with the American sharpshooters, and ciad in invisible green uniforms. Each of the regiments is about four hundred strong.

The Montreal Field Battery, Colonel A. A. Stevenson commanding, it was also suggested should accompany the regiments, if the men can go. The latter is looked upon as the crack battery of the Province, and musters seventy-five men and five officers. They have four nine-pounder guns and are uniformed in the blue and yellow of the artillery of Great Britain.

The Sixth Fusileers are, compratively speaking, a new regiment. They have six companies, a splendid band and wear the uniform of the fusileers, scarlet roat and dark trowsers, surmounted by the bearskin hat and busby. They are a smart lot of men, and their bayonet drill at the annual inspection last saturday was pronounced the best that had been seen since the departure from Canada of the regular roops.

The "PRINCE's own."

The First (Prince of Wales' Own) Rifles is the oldest regiment in Canada, and was named after the Prince, to whom they acted as body guard on the occasion of his visit to Canada more than twenty years ago. They were inspected this afternoon and presented a remarkably fine appearance.

Colonel Stevenson's battery held a meeting last night, but after considering the question deferred it to another meeting, as there is much more difficulty in making arrangements for a movement of a field battery and their horses than there is for a movement of infantry.

THE BARNES MURDER CASE

BALLSTON, N. Y., Oct. 25, 1879. In the Barnes case at Sandy Hill to-day, the Court after a long discussion, allowed the evidence t

prove the threats by Priest to take the life of de sed to be admitted. George Burk testified relative to a conversation wit Priest, in which the latter said he would take Barnes

Priest, in which the latter said he would take Barnes' life, even if he had to shoot him; Priest said in a subsequent conversation with witness that he had been watching for a chance to get at the old man; witness contessed he had never told Barnes of this conversation, although he was often at his house previous to his death.

Dr. Maynard testified to seeing Priest pass Barnes' house, shaking his fist and swearing.

Wallace Barnes saw mysterious tracks in the snownear the house during one night of Barnes' sickness; he also said he had drank of the water of the spring and experienced no evil effect; had heard Barnes speak to the prisoner several times about buying arsenic for rats.

Henry Hover heard Priest accuse Barnes of having caused him to to be tarred and feathered, and heard him make threats to take Barnes' life.

Michael Ryan testified relative to the poor health of Barnes several months previous to his death.

Thomas Edie testified that he had a subponn for Priest to attend the Coroner's inquest, and that Priest field to Vermont.

Mrs. Jennie S. Priest, the daughter of the deceased, testified relative to the poor health of her father previous to his last sickness, and to his drinking large quantities of water the day previous to his final sickness and its causing comment from members of the same on the way home. The cross-examine, of the same on the way home. The cross-examine. bers of the family; also to her mother having in-formed her father of the purchase of arsenic and loss of the same on the way home. The cross-examina-tion of this witness will commence on Monday. The prisoner will undoubtedly be put on the stand.

MURDER IN THE SECOND DEGREE, Staten Island ... | 4 PM 39.70 | 48 NNW Cloudy.

[BY TELEGRAPH TO THE HERALD.]

SCRANTON, Pa., Oct. 25, 1879.

The jury in the case of Thomas Barrett for the killing of Callahan came in to-day, after an exciting all night session, with a verdict of "Murder in the second degree." The trial has occupied in the second degree." The trial has occupied the entire week, and popular feeling has been wrought to a high pitch, owing to the cold blooded character of the crime. Everybody expected a verdict of murder in the first degree, and even Barrett's friends have been surprised by the leniency of the jury. The prisoner appeared indifferent during the solemn ceremony of taking the verdict. His mother sat beside hm trembling, and the court room was thronged to suffocation. Barrett will receive his sentence next week.

MURDER IN THE FIRST DEGREE.

AUGUSTA, Me., Oct. 25, 1879. On the 11th of May last year Jason P. Scribne made an assault with a spade upon his wife and children, and two of the latter died from their injuries. He has already had two trials for murder. the first being found guilty of murder in the first degree, but exceptions were allowed owing to a flaw in the indictment and the decision is still pending. On the second trial he was charged with the murder of one child, and the jury failed to agree upon a verdict. To-day, on a third trial, same charge, the jury brought in a verdict of murder in the first degree.

CONDONING MURDER IN GEORGIA.

TRIAL AND ACQUITTAL OF THE MEN WHO KILLED THE MORMON ELDER, STANDING. [BY TELEGRAPH TO THE HERALD.]

ATLANTA, Oct. 25, 1879.

The trial of the men indicted for the murder of Joseph Standing, the Mormon elder, closed to-day with the sequittal of the last man. There were tw true bills, one for murder and one for riot, but it was impossible to get a verdict of guilty on was impossible to get a verdict of guilty on either. The men are, therefore, acquitted. Three Mormon elders attended the trial and pushed the prosecution vigorously, but the men stood by each other and all escaped. The general impression is against the verdict. There are two of the parties amoited still at large, and the tendancy of the testimony was to fix the guilt on them. Several of the native Mormons were present at the trial. The elders say that they will continue their work in Georgia, and will preach in Atianta in a few days.

CHARGED WITH MANY CRIMES.

[BY TELEGRAPH TO THE HERALD.]

Омана, Neb., Oct. 25, 1879. A lively contention is going on for Noian and Johnson, of Doc Middleton's gang of outlaws, horse thieves and murderers, arrested in Minnesota by Detective Llewellyn, and now in jail here. In mediately after the prisoners reached here Deputy Sheriffs Smith and Martin arrived from Cheyenne with a requisition from the Governor of Wyoming or Nolau, who is charged with murder there. The Sheriff of Dawson county writes from Pium Creek, where Nolan broke jail, asking to have him turned over to him. Parties in Sidney are anxious to prosecute Nolan for the murder of a Spaniard at that place last January, and are preparing an application to Attorney General Devens for the custody of the murderer. In addition the authorities of Cheyenne county, Neb., want both men-Noisn for marder. The authorities in Laramie county, Wyoming, want both for stealing; the authorities of Dawson county want Noisn for jail breaking and both for grand larceny; the authorities of a county in Colorado want both for jarceny; the United States authorities hold both for stealing Indian horses in Dakota and robbing a

post office in the Sioux country. United States District Attorney Lambertson refuses to surrender the prisoners to any of the other authorities, but holds them to answer the last charge, for which they were arrested. Both men have broken jail at several different points in the States.

ANOTHER ARSENIC POISON CASE.

[BY TELEGRAPH TO THE HERALD.]

HARTFORD, Conn., Oct. 25, 1879. Professor Johnson, of Yalo College, announces that his analysis of the stomach of Mrs. Riddle, wife of William B. Riddle, a prominent manufacturer, who died in May, 1878, reveals the presence of arsenic in fatal quantities. The preliminary hearing, at Norwich, of the accused husband will begin next Tuesday, and it is understood that the prisoner has se day, and it is understood that the prisoner has secured able counsel, who will adopt as their line of defence the theory that the white noison may have been found in the body of the deceased who had long been in ill health, and may have obtained it herself with the object of ending her life and her troubles. The State officials are energetically investigating the case and making special endeavors to ascertain where and when Riddle has purchased arsenic. A strong piece of circumstantial evidence against the accused is that Mrs. Riddle, while summering at the Edgecomb House, New London, a year before her death, had convulsions and other symptoms of poisoning after drinking some port wine brought by her husband. A strange circumstance of this affair is that the bottle and glass mysteriously disappeared during the excitement attending her attack, and that no trace of them could ever be discovered.

ELDER STANDING'S MURDER.

ATLANTA, Ga., Oct. 25, 1879. The trial of the men accused of the murder of the Mormon Elder Standing closed to-day, all the parties being acquitted. Some of the parties who were indicted have not yet been caught.

SENTENCED TO DEATH.

WASHINGTON Oct. 25, 1879. In the case of J. M. Wyatt Stone, colored, convicted of murdering his wife some months ago by cutting her throat with a razor, the motion for a new trial was to-day overruled, and Stone was sen-tenced to be hanged on Friday, the 19th of Decem-

FLIGHT OF A BIGAMIST.

[BY TELEGRAPH TO THE HERALD.]

NEWPORT, R. I., Oct. 25, 1879. G. Availone, the bigamist, whose exploits were recently mentioned in the HERALD, has left for parts unknown. Wife No. 2 is in possession of his property. The sign over his place of business was quietly taken down this afternoon. Wife No. 1 threatened to either kill him or have him arrested for bigamy if he did not leave wife No. 2 within four days; but she did not want him to live with her. He and his friends were convinced that she won d carry out her threats. Therefore it was deemed the wisest policy for Avallone to leave the city. Wife No. 1 is in Providence, and is expected here on Monday. She will without doubt attempt to have an interview with the woman who is occupying her husband's pleasant home in this city. property. The sign over his place of business was

SUDDEN CHANGES. CHANGES OF TEMPERATURE ARE ant to occasion dangerous affections; in the full-blooded apoplexy is to be feared. All, both young and aged, should have BRAN-DRETH'S PILLS ready; they are never fatling. When you have pain in the head, are dizzy, feverish, rheumatic, or otherwise affected, take from three to ten, according to bulk of individual. In twenty-four hours' time, or less, you will be content. Constitutions are much alike. Vertigo, distincts and pain can come only when impurity in the bleed is too much for "the life" in us to carry without a struggle. And it is this struggle that BRANDRETH'S PILLS aid, and no mistakes are made when you merely take away

IMPURITIES FROM THE BLOOD.

EFFECT OF ONE DOSE OF BRANDRETH'S PILLS. PIRST NATIONAL BANK OF SING SING, | May 23, 1870.

My DEAR Doctor-About two weeks ago I was suddenly seized, in the bank, with a violent pain in the back and hip joints, accompanied with high fever and violent pains in the head, so much so as to make me unable to go on with my work. I got home as soon as possible, swallowed eight BRANDRETH'S PILLS and went to bed. My pains continued to increase for some hours. Finally the Pills acted very freely, and I fell into a profound sleep. The next morning I awoke free from pain and fever, with a most vigorous appetite, and returned to my business. I

know that single dose of Pills saved me a fit of sickness.

Yours, very truly,

IRA J. GRIFFIN, Bookkeeper. BRANDRETH'S PILLS are sold by all dealers, with

MATHUSHEK MATHUSHEK MATHUSHEK The Plano for a life time. All persons desiring • procure a l'iane will find it greatly to their interest to call and examine our wonderful improvements in the art of plane making. First. in our Equalizing Scale. Second. Linear Bridge Third, in our Tuning Pin Bushing Fourth, in our Good honest By the use of our

MISCELLANEOUS.

EQUALIZING SCALE

the TENSION of the STRINGS, instead of being ALL upon ONE CORNER, AS IN OTHER MAKES of pianos, is brought to bear EQUALLY upon ALL sides of the iron plate or frame, GREATLY INCREASING the STRENGTH and DURABILITY of the piano, and as well permitting the use of LONGER and LARGER strings. gaining superiority at EVERY POINT. By the use of our

LINEAR BRIDGE

WE UTILIZE THE SOUNDING BOARD,

the better portion of which in other pianos is of no value TO ITS FULLEST CAPACITY, thereby producing at once the MOST ASTONISHING POWER, RICHNESS and DEPTH OF TONE, WITH A

be EQUALLED by ANY OTHER scale. By the use of our TUNING PIN BUSHING the pins when once placed are literally in a GRASP of IRON, and there is NO CHANCE for the action of the atmosphere to lengthen or contract the strings. This is

SINGING QUALITY that CANNOT

SCALES. These wonderful changes in the science of piane making are universally indersed by ALL the LEADING CRITICS and ARTISTS as the ONLY radical IMPROVEMENTS

the reason our planes require but ONE-FOURTH the TUNING NECESSARY for PIANOS of OTHER

EVER made in planes. and imperfect method of constructing planes were looked upon, when introduced FIFTEEN YEARS ago, as innovations by other manufacturers, and were eagerly criticised with the hope of finding some weak point for assault. But after the many years of thorough trial we are enabled to prove ALL and MORE than we claim for them, and cor
